**NO SHOW POLICY: For missed massage appointments, a fee of \$40 will be billed directly to you, the patient.** This fee will not be billed to insurance. There will be a limit of three missed massages before we will no longer be able to schedule you. Please understand that this typically takes an entire HOUR out of our massage therapists' schedules and, unfortunately, they are only paid when a massage is performed. There are many patients waiting to see our therapists and this is simply to decrease the occurrence of missed appointments. ACC requires at least 24 hours cancellation notice.

I understand and agree that health/ accident insurance policies are an arrangement between an insurance carrier and me. Furthermore, I understand that Acupuncture Chiropractic Center will prepare any necessary reports and forms to assist me in making collection from the insurance company and that any amount authorized to be paid directly to the ACC will be credited to my account on receipt. However, I clearly understand and agree that all services rendered me are charged directly to me and that I am personally responsible for payment.

## Payment Options

### Private Pay

As a courtesy to our patients who do not have chiropractic insurance benefits, we offer a discount for services rendered in this office. Discounted rates do not follow ACC's normal fee schedule. These fees are substantially lower with intent of affording a greater chiropractic/acupuncture benefit to more people. Payment for services and/or supplies is due and payable at the time of service.

### Insurance

Once your insurance has been verified, your benefits will be explained to you. This verification will determine approximately what your coverage is and co-payments/co-insurance amounts will be collected as dictated by your insurance carrier at each visit. Remember that all charges incurred in this office are ultimately your personal responsibility. ACC will file insurance claims for you in a timely fashion.

### Personal Injury

Please provide your automobile insurance. Once your insurance coverage has been verified, your benefits will be explained to you. We may be willing to consider your case using a "medical" or "doctor's lien"; and if this applies, a co-payment at each visit will be necessary to carry your case. Remember that all charges incurred in this office are ultimately your personal responsibility.

### Medicare

As a participating provider for Medicare, ACC will accept assignment for Medicare patients. Medicare will cover chiropractic adjustments ONLY at 80% once the yearly deductible is met. It is the insured's responsibility to pay any applicable deductible and 20% of the charge for the adjustment at the time of service. Should therapy services be rendered, the insured will be required to pay the charges at the time of service unless there is a secondary insurance plan.

### Worker's Compensation

If you have been involved in a work related accident or injury, you must report this to your supervisor immediately. Once we have received proper authorization to evaluate and treat you for your work related condition your insurance carrier for your employer is financially responsible for all medical bills related to your injury.

**NO SHOW POLICY:** If you are unable to keep your appointment kindly give **24-hour notice**. Fees for missed appointments will apply. These fees will not be billed to insurance. There will be a limit of three missed massages before we will no longer be able to schedule you.

By my signature below, I understand that I am financially responsible for all charges incurred by me at Acupuncture Chiropractic Center (ACC). I hereby assign my insurance benefits to Dr. Michael Springfield and/or Dr. Eric Walker. Any overpayment on my account will be refunded. Additionally, I authorize ACC to release any protected health information required to secure payment. Should my account become delinquent, I understand that I am responsible for any interest, collection fees, attorney's fees and court costs incurred in collecting any outstanding balance. For any returned checks there will be a \$30.00 fee in addition to the outstanding balance on the account. Patient balances that are over 30 days past due are subject to a monthly finance charge of 1.75% (21% APR).

## ***Informed Consent to Treatment***

**The nature of chiropractic treatment:** The doctor will use his/her hands or a mechanical device to move your joints. You may feel a “click” or “pop”, such as the noise when a knuckle is “cracked”, and you may feel movement of the joint. Various ancillary procedures, such as **HOT or COLD PACKS, ELECTRIC MUSCLE STIMULATION, THERAPEUTIC ULTRASOUND, ACUPUNCTURE, MASSAGE, and MANUAL THERAPY or dry hydrotherapy** may also be used.

**Possible Risks:** As with any health care procedure, complications are possible following a chiropractic manipulation. Complications could include fractures of bone, muscular strain, ligamentous sprain, dislocations of joints, or injury to intervertebral discs, nerves or spinal cord. Cerebrovascular injury or stroke could occur upon severe injury to arteries of the neck. A minority of patients may notice stiffness or soreness after the first few days of treatment. The ancillary procedures could produce skin irritation, burns or minor complications.

**Probability of risks occurring:** The risks of complications due to chiropractic treatment have been described as “rare”, about as often as complications are seen from the taking of a single aspirin tablet. The risk of cerebrovascular injury or stroke has been estimated at one in one million to one in twenty million and can be even further reduced by screening procedures. The probability of adverse reaction due to ancillary procedures is also considered “rare”.

**Other treatment options which could be considered** may include the following:

- *Over-the-counter analgesics.* The risks of these medications include irritation to stomach, liver and kidneys, and other side effects in a significant number of cases.
- *Medical care,* typically anti-inflammatory drugs, tranquilizers, and analgesics. Risks of these drugs include a multitude of undesirable side effects and patient dependence in a significant number of cases.
- *Hospitalization* in conjunction with medical care adds risk of exposure to virulent communicable disease in a significant number of cases.
- *Surgery* in conjunction with medical care adds the risks of adverse reaction to anesthesia, as well as an extended convalescent period in a significant number of cases.

**Risks of remaining untreated:** Delay of treatment allows formation of adhesions, scar tissue and other degenerative changes. These changes can further reduce skeletal mobility and induce chronic pain cycles. It is quite probable that delay of treatment will complicate the condition and make future rehabilitation more difficult.

**Unusual risks:** I have had the following unusual risks of my case explained to me.

*I have read the explanation above of chiropractic treatment. I have had the opportunity to have any questions answered to my satisfaction. I have fully evaluated the risks and benefits of undergoing treatment. I have freely decided to undergo the recommended treatment and hereby give my full consent to treatment.*
